 Attorney for Debtor(s)

UNITED STATES BANKRUPTCY COURT
CENTRAL DISTRICT OF CALIFORNIA

In re:

**EDUARDO MEZA and
BERTHA MEZA,**

CASE NUMBER: 6:22-bk-13184-WJ

CHAPTER 7

**DEBTOR'S NOTICE OF MOTION AND MOTION
TO AVOID LIEN UNDER 11 U.S.C. § 522(f)
(REAL PROPERTY)**

[No hearing required unless requested under LBR 9013-1(o)]

Creditor Name: Rescomm Holdings No. 2, LLC

TO THE CREDITOR, ATTORNEY FOR CREDITOR AND OTHER INTERESTED PARTIES:

1. **NOTICE IS HEREBY GIVEN** that Debtor moves this court for an order, pursuant to LBR 9013-1(o) upon notice of opportunity to request a hearing (i.e., without a hearing unless requested), avoiding a lien on the grounds set forth below.

2. **Deadline for Opposition Papers:**

Pursuant to LBR 9013-1(o), any party opposing the motion may file and serve a written opposition and request a hearing on this motion. If you fail to file a written response within 14 days of the date of service of this notice of motion and motion, plus an additional 3 days unless this notice of motion and motion was served by personal delivery or posting as described in Federal Rules of Civil Procedure 5(b)(2)(A)-(B), the court may treat such failure as a waiver of your right to oppose this motion and may grant the requested relief.

"Bankruptcy Code" and "11 U.S.C." refer to the United States Bankruptcy Code, Title 11 of the United States Code. "FRBP" refers to the Federal Rules of Bankruptcy Procedure. "LBR" and "LBRs" refer to the Local Bankruptcy Rule(s) of this court.

ATTACHMENT TO MOTION/ORDER

(11 U.S.C. § 522(f): AVOIDANCE OF REAL PROPERTY JUDICIAL LIENS)

This court makes the following findings of fact and conclusions of law:

1. **Creditor Lienholder/Servicer: Rescomm Holdings No. 2, LLC**
2. **Subject Lien:** Date and place of recordation of lien (*specify*): **3/7/2005; Riverside County Recorder**
Recorders instrument number or document recording number: **2005-0180738**
3. **Collateral:** Street address, city, county and state, where located, legal description and/or map/book/page number, including county of recording:

433 Diamond Way, Perris, Riverside County, CA 92571

Lot: 10 ; Tract No: 4109 ; Abbreviated Description: LOT:10 CITY:PERRIS TR#:4109 LOT 10 MB 066/057 TR 4109 ; City/Muni/Twp: PERRIS

See attached page.

4. Secured Claim Amount

- a. Value of Collateral: **\$200,000.00**
- b. Amounts of Senior Liens (reducing equity in the property to which the Subject Lien can attach):
 - (1) First lien: (\$____)
 - (2) Second lien: (\$____)
 - (3) Third lien: (\$____)
 - (4) Additional senior liens (*attach list*): (\$____)
- c. Amount of Debtor's exemption(s): **(\$560,000.00)**
- d. Subtotal: **(\$560,000.00)**
- e. Secured Claim Amount (negative results should be listed as -\$0-): **-\$0-**

Unless otherwise ordered, any allowed claim in excess of this Secured Claim Amount is to be treated as a nonpriority unsecured claim and is to be paid pro rata with all other nonpriority unsecured claims (in Chapter 13 cases, Class 5A of the Plan).

Lien avoidance: Debtor's request to avoid the Subject Lien is granted as follows. The fixing of the Subject Lien impairs an exemption to which Debtor would otherwise be entitled under 11 U.S.C. § 522(b). The Subject Lien is not a judicial lien that secures a debt of a kind that is specified in 11 U.S.C. § 523(a)(5) (domestic support obligations). The Subject Lien is void and unenforceable except to the extent of the Secured Claim Amount, if any, listed in paragraph 4.e. above.

See attached page(s) for more liens/provisions.

Official Form 106C

Schedule C: The Property You Claim as Exempt

4/22

Be as complete and accurate as possible. If two married people are filing together, both are equally responsible for supplying correct information. Using the property you listed on *Schedule A/B: Property* (Official Form 106A/B) as your source, list the property that you claim as exempt. If more space is needed, fill out and attach to this page as many copies of *Part 2: Additional Page* as necessary. On the top of any additional pages, write your name and case number (if known).

For each item of property you claim as exempt, you must specify the amount of the exemption you claim. One way of doing so is to state a specific dollar amount as exempt. Alternatively, you may claim the full fair market value of the property being exempted up to the amount of any applicable statutory limit. Some exemptions—such as those for health aids, rights to receive certain benefits, and tax-exempt retirement funds—may be unlimited in dollar amount. However, if you claim an exemption of 100% of fair market value under a law that limits the exemption to a particular dollar amount and the value of the property is determined to exceed that amount, your exemption would be limited to the applicable statutory amount.

Part 1: Identify the Property You Claim as Exempt

1. Which set of exemptions are you claiming? Check one only, even if your spouse is filing with you.

You are claiming state and federal nonbankruptcy exemptions. 11 U.S.C. § 522(b)(3)
 You are claiming federal exemptions. 11 U.S.C. § 522(b)(2)

2. For any property you list on *Schedule A/B* that you claim as exempt, fill in the information below.

Re: Property: 433 Diamond Way
Perris, CA 92571
Owner: N/A
File No.: F230001

In accordance with your request, we have appraised the above referenced property. The report of that appraisal is attached.

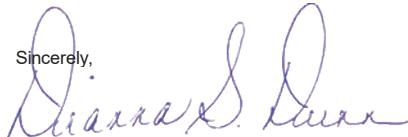

The purpose of this appraisal is to estimate the market value of the property described in this appraisal report as of **August 24, 2022 (Retrospective)**, as improved, in unencumbered fee simple title of ownership.

This report is based on a physical analysis of the site and improvements, a locational analysis of the neighborhood and city, and an economic analysis of the market for properties such as the subject. The appraisal was developed and the report was prepared in accordance with the Uniform Standards of Professional Appraisal Practice.

The value conclusions reported are as of the effective date stated in the body of the report and contingent upon the certification and limiting conditions attached.

It has been a pleasure to assist you. Please do not hesitate to contact me or any of my staff if we can be of additional service to you.

Sincerely,

Dianna S Dunn

Summary of Sales Comparison Approach All sales are located within close proximity to subject. All sales are considered most representative of subject's estimate of fair market value. The appraiser has examined all sales that have transpired within the prior 12 month time frame of 08/20/2021 to 08/24/2022. As subject is a single wide mobile home that is not on a permanent foundation it was necessary to go back in time in search for comparable properties in order to provide adequate bracketing in locating a more apples to apples comparison. As the market is indicated to have been increasing over the prior twelve month time frame of focus (08/20/2021 to 08/24/2022), a 1/2% per month adjustment (rounded) has been applied from contract date to August 2022 for increasing market. Sales utilized are believed to be the best and only comparables available.													
The individual line adjustments based on match paring, agent collaboration and an estimated cost to replicate the upgrade/remodeling differences. The sales used represent a good substitution for the subject property based on similar overall GLA, bedroom/bath count, year built, quality of construction and location. GLA adjustments applied at \$35 per sq ft and based on analysis of the market. Bedroom adjusted at \$0,000. Bathroom adjusted at \$7,500. We are unable to apply condition adjustments as this is an exterior only inspection and we are unable to make a condition determination for subject's interior, however we are able to report the comparables' described conditions per MLS commentary and conversation with the listing agents, and utilize this information in our final reconciliation. Garage bay count adjusted at \$3,000 per bay and based on a percentage of replacement cost. Sales utilized are considered good purchase alternatives. Sales utilized are considered the best comparables available and the most appropriate in representation of subject property.													
Comparable 1 is a double wide mobile home and is superior in gross living area and bath count. It is described as average original condition per MLS commentary and photos viewed. A 2.5% adjustment applied for increasing market. This sale is on a permanent foundation.													
Comparable 2 is also a double wide mobile home and is superior in gross living area and bath count. This sale's kitchen and bathrooms have been upgraded. A 3.5% adjustment applied for increasing market. This sale is on a permanent foundation.													
Comparable 3 is a single wide mobile home and is inferior in gross living area and garage bay count. This sale is described as in need of repairs, further MLS commentary states it is not in livable condition per listing agents opinion. A 1% adjustment applied for increasing market. This sale is not on a permanent foundation.													
See Additional Comparables page 7 for continued Sales Comparison Summary and Reconciliation commentary

SALES COMPARISON APPROACH

Comparable 4 is a single wide mobile home and is inferior in gross living area, bedroom count and garage bay count. This sale is described as in need of repairs, further MLS commentary states it a fixer upper. Per listing agent it would take approximately \$40K to upgrade and fix it up. This is a very dated sale and was utilized in order to provide a secondary single wide mobile home sales comparable. A 12% adjustment applied for increasing market. This sale is not on a permanent foundation.

Comparable 5 is a double wide mobile home and is superior in gross living area, bath count and garage bay count. MLS commentary indicates it is in need of repairs (the extent unknown) and is sold "As-Is", also having two bonus rooms that are not permitted which are being utilized as bedrooms. A 4% adjustment applied for increasing market. This sale is not on a permanent foundation.

Greatest weight is given comparable 1 as appearing to be most like subject in original condition (per homeowner) with secondary weight given comparable 2, although an upgraded unit. Remaining weight given comparables 3, 4 and 5 as least like subject in condition, although 4 and 5 are similar as single wide units, least weight given these due to the described inferior condition.

All comparables are manufactured homes located in the same mobile home subdivision as subject.

MLS photos utilized for comparables as they are believed to be most representative of condition at the time of sale.

Appraiser: Dianna S Dunn	Address: P O Box 982, Lake Elsinore, CA 92531		
STATEMENT OF ASSUMPTIONS & LIMITING CONDITIONS			
<ul style="list-style-type: none"> - The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis of it being under responsible ownership. - The appraiser may have provided a sketch in the appraisal report to show approximate dimensions of the improvements, and any such sketch is included only to assist the reader of the report in visualizing the property and understanding the appraiser's determination of its size. Unless otherwise indicated, a Land Survey was not performed. - If so indicated, the appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in the appraisal report whether the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination. - The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand. - If the cost approach is included in this appraisal, the appraiser has estimated the value of the land in the cost approach at its highest and best use, and the improvements at their contributory value. These separate valuations of the land and improvements must not be used in conjunction with any other appraisal and are invalid if they are so used. Unless otherwise specifically indicated, the cost approach value is not an insurance value, and should not be used as such. - The appraiser has noted in the appraisal report any adverse conditions (including, but not limited to, needed repairs, depreciation, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property, or that he or she became aware of during the normal research involved in performing the appraisal. Unless otherwise stated in the appraisal report, the appraiser has no knowledge of any hidden or unapparent conditions of the property, or adverse environmental conditions (including, but not limited to, the presence of hazardous wastes, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, the appraisal report must not be considered as an environmental assessment of the property. - The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties. - The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice, and any applicable federal, state or local laws. - If this appraisal is indicated as subject to satisfactory completion, repairs, or alterations, the appraiser has based his or her appraisal report and valuation conclusion on the assumption that completion of the improvements will be performed in a workmanlike manner. - An appraiser's client is the party (or parties) who engage an appraiser in a specific assignment. Any other party acquiring this report from the client does not become a party to the appraiser-client relationship. Any persons receiving this appraisal report because of disclosure requirements applicable to the appraiser's client do not become intended users of this report unless specifically identified by the client at the time of the assignment. - An appraisal of real property is not a 'home inspection' and should not be construed as such. As part of the valuation process, the appraiser performs a non-invasive visual inventory that is not intended to reveal defects or detrimental conditions that are not readily apparent. The presence of such conditions or defects could adversely affect the appraiser's opinion of value. Clients with concerns about such potential negative factors are encouraged to engage the appropriate type of expert to investigate. 			

The Scope of Work is the type and extent of research and analyses performed in an appraisal assignment that is required to produce credible assignment results, given the nature of the appraisal problem, the specific requirements of the intended user(s) and the intended use of the appraisal report. Reliance upon this report, regardless of how acquired, by any party or for any use, other than those specified in this report by the Appraiser, is prohibited. The Opinion of Value that is the conclusion of this report is credible only within the context of the Scope of Work, Effective Date, the Date of Report, the Intended User(s), the Intended Use, the Stated Assumptions and Limiting Conditions, any Hypothetical Conditions and/or Extraordinary Assumptions, and the Type of Value, as defined herein. The appraiser, appraisal firm, and related parties assume no obligation, liability, or accountability, and will not be responsible for any unauthorized use of this report or its conclusions.

DEFINITION OF MARKET VALUE * :								
Market value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:								
<ol style="list-style-type: none"> 1. Buyer and seller are typically motivated; 2. Both parties are well informed or well advised and acting in what they consider their own best interests; 3. A reasonable time is allowed for exposure in the open market; 4. Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and 5. The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale. 								
* This definition is from regulations published by federal regulatory agencies pursuant to Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act (FIRREA) of 1989 between July 5, 1990, and August 24, 1990, by the Federal Reserve System (FRS), National Credit Union Administration (NCUA), Federal Deposit Insurance Corporation (FDIC), the Office of Thrift Supervision (OTS), and the Office of Comptroller of the Currency (OCC). This definition is also referenced in regulations jointly published by the OCC, OTS, FRS, and FDIC on June 7, 1994, and in the Interagency Appraisal and Evaluation Guidelines, dated October 27, 1994.								
DEFINITION OF FAIR MARKET VALUE as required by Internal Revenue Service:								
Fair market value (FMV) is the price that property would sell for on the open market. It is the price that would be agreed on between a willing buyer and a willing seller, with neither being required to act, and both having reasonable knowledge of the relevant facts.

PURPOSE, INTENDED USE, AND INTENDED USER OF THE REPORT

Purpose and Intended Use. The purpose and intended use of this report is to develop and report an opinion of market value to assist the client in evaluating the subject property as of **August 24, 2022 (Retrospective)**.

Intended User. The intended user of the report is Eduardo & Bertha Meza, legal counsel and the court for estimate of market value as of **August 24, 2022 (Retrospective)** for bankruptcy purposes. The use of this report, or any portion, by any other party is prohibited.

The use of this appraisal for loan purposes or use by any lender for loan purposes, is strictly prohibited. This is a one time use by the client as described above.

PROPERTY RIGHTS APPRAISED

The property is appraised as if held in **fee simple estate**, with all rights that can be lawfully owned with the exception of the four powers that forever will remain with the sovereign, being taxation, escheat, eminent domain, and police power (zoning). It is regarded as having a good and merchantable title, and responsible ownership.

SCOPE OF WORK

The following is a summary outline of the amount and type of information researched and the analysis employed in this appraisal assignment. The scope of work includes , but not limited to, the following:

- Communication with the client to define the assignment.
- Establishing the appropriate intended use and purpose of the assignment.
- Analyse of public data, title information (when provided), and legal descriptions.
- Inspection of the exterior of the subject property.
- Gather and analyze applicable market data, with particular emphasis on comparable sales.
- Inspection of the exterior of all properties listed as comparables.
- Evaluate marketability of properties as to conformity, environmental and physical conditions, supply and demand, highest and best use analysis, and balance within the market.
- Analysis of the economic features of the neighborhood, as well as, competing markets that may have an impact on the subject's market area.
- Consider and analyze applicable valuation approaches, methods, and procedures.
- Reconcile information analyzed, appraisal procedures followed, and the reasoning that supports the analysis, opinions, and conclusions. The reconciliation includes all hypothetical conditions, extraordinary assumptions, limiting conditions, and/ or permitted departures from specific requirements.
- Reporting the final results to the client of record.

Definition of Market Value

Market value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

1. Buyer and seller are typically motivated;
2. Both parties are well informed or well advised and acting in what they consider their own best interests;
3. A reasonable time is allowed for exposure in the open market;
4. Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
5. The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

* This definition is from regulations published by federal regulatory agencies pursuant to Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act (FIRREA) of 1989 between July 5, 1990, and August 24, 1990, by the Federal Reserve System (FRS), National Credit Union Administration (NCUA), Federal Deposit Insurance Corporation (FDIC), the Office of Thrift Supervision (OTS), and the Office of Comptroller of the Currency (OCC). APPROACHES TO VALUE

This appraisal is completed in accordance with the Uniform Standards of Professional Appraisal Practice. By agreement with the client, departures was invoked as the (Income) Approach was considered and found applicable but not necessary to produce results that are credible. This report departs from Standards Rule 1-4 (b) (i), (ii) and (iii).

SPECIAL ASSUMPTIONS AND LIMITATIONS TO APPRAISAL

A current preliminary title report was not provided for our review. Since we did not have access to a current title report depicting all matters that may or may not have impact on the property, we emphasize that the value estimated herein assumes no adverse conditions. If a title report were to uncover unfavorable conditions, the value conclusion for the subject property could be impacted and therefore this report would be subject to revision.

HYPOTHETICAL CONDITIONS/EXTRAORDINARY ASSUMPTIONS

It is noted this is an exterior only inspection, property details were taken from various sources including a visual exterior inspection from the curb, public record sources, and the multiple listing service (MLS). The subject appears to be in overall average condition from the exterior. No physical, functional or external inadequacies noted. It is assumed subject's average exterior condition is reflective of the interior condition as of inspection date of 01/31/2023. If evidence is presented to indicate the interior condition is not as assumed, the appraiser reserves the right to amend this appraisal. (Extraordinary Assumption) Use of Extraordinary Assumptions may effect the reconciled value.

DIGITAL SIGNATURES

This appraisal company utilizes digitally generated signatures on all electronically transmitted original appraisals. Digital signatures are commonly used within the appraisal profession and allows for improved performance with regard to electronic data transmission. All electronic signatures utilized in this report have a security feature maintained by individual passwords for each signing appraiser. No person can alter the appraisal with the exception of the original signing appraiser(s). The digitally generated signatures are to be considered live signatures if they signed in blue ink. If the signatures are not signed in blue ink, the appraisal is not considered an original copy. These signatures are legally binding and equivalent to an analog signature.

ENVIRONMENTAL DISCLAIMER

In this appraisal assignment, the existence of potentially hazardous materials used in the construction or maintenance of the building, such as the presence of ureaformaldehyde foam insulation and/or the existence of toxic waste, which may or may not be present on the property was not observed by me, nor do I have any knowledge of the existence of such materials on or in the property. The appraiser however is not qualified to detect such substances. I urge the client to retain an expert in this field if desired.

The appraiser assumes no responsibility for the possible presence of asbestos, radon or other toxic/hazardous materials on or about the property. It is possible that any "cottage cheese" type finish on the ceiling contains asbestos, as might the wiring in the range, oven, and fans and in other electrical appliances in the property.

Unless otherwise stated in this report, the existence of hazardous/toxic substances, (which may be present on the subject's property), was not visually obvious to the appraiser. The visual inspection undertaken by the appraiser was performed in the normal course of the field inspection and results are for the internal use of the named financial institution. The results of the inspection are not any form of assurance or not assurance to any other party as to the existence/nonexistence of hazardous/toxic substances. No hazardous/toxic substances were visually observed on adjacent properties. The appraiser however is not qualified to detect such substances and no tests were conducted on the subject property and or the adjacent properties to confirm the visual observations. The value estimate (and any reliance hereon) is predicated on the assumption that there are no such substances on or near the subject property that would cause a loss in value. The client is advised to retain its own expert at its own expense if one desired.

If the subject was constructed prior to 1978, it may contain lead-based paint or other hazardous substances. The client is hereby notified that the appraiser is not qualified to detect these substances and that it is beyond the scope of this assignment to ascertain the presence of lead based paint and or other hazardous substances that might be present in the subject property. The client is advised to consult a qualified expert(s) in the detection of lead-based paint and other hazardous substances if further information is desired.

SALES HISTORY GUIDELINES AND ANALYSIS

All agreements of sales, options, or listings of the subject property current as of the effective date of the appraisal, all sales of the subject property that occurred within three (3) years prior to the effective date of the appraisal, and of any comparable sales within three (3) years of the date of the date of the appraisal were analyzed.

HIGHEST AND BEST USE ANALYSIS

The highest and best use of a site is that reasonable and probable use that supports the highest present value as of the date of the appraisal. The highest and best use of a property always takes into consideration the existing improvements as identified by an improvement analysis. In estimating the highest and best contemplated uses of the subject property (the property is viewed both as vacant and as improved), the use must satisfy legally permissible, physically possible, financially feasible and maximally productive criteria. Generally the existing use will continue until the land value (in its highest and best use) exceeds the total value of the property in its existing use. Thus the highest and best use of the subject property is presumed to be "as improved" unless it can be readily demonstrated that change is imminent through transitional trends, market demand, and/or legal forces.

The subject property meets the test of highest and best use as being:

1. Physically possible
2. Reasonable probable
3. Legally permissible
4. Financially feasible

As supply and demand are in balance for the type of property, the type of product that might be built on the subject's site, the current improvements (at the time of the appraisal) are considered to be the highest and best use of the subject site.

DIRECT SALES COMPARISON

The comparable sales were verified by the inclusion of the recorded deed numbers. All comparable data was generally localized to within one mile or less of the subject property, using the most similar properties available. The comparable data shown in the report represents the most pertinent data applicable to the assignment. The subject neighborhood was inspected to assist the appraiser's primary data sources were Marshall & Swifts Cost Handbook, and printed as well as computer-based real estate information services (may include but not limited to: National Data Cooperative, Dataquick Information Services, and Experian Information Services) the appraiser may also have obtained useful information from a Board of Realtors Multiple Listing Service; from personal conversations with property owners, real estate sales people, and city/county building/zoning personnel. Where possible, sales prices and terms of sales were verified with someone familiar with the sale. Reasonable care was used in the measuring the property, and dimensions shown on the sketch are as accurate as possible, but square footage is not guaranteed.

The date of sales reported are the closing dates. Many comparable closed sales were considered in the making of this appraisal. Dollar adjustments reflect the market reaction to the difference between the comparable sales and the subject property. These adjustments are based on the appraisers knowledge of the market, training and experience. The closed sales displayed are considered to be the most comparable at the time of the appraisal and the best indicators of value for the subject property.

FINAL RECONCILIATION

The market (sales comparison), cost, and income approaches were considered in developing an opinion of market value in this report. The market approach was given primary consideration and is regarded the most reliable method for this type of property, as it best reflects the actions of typical buyers in the market place.

The Cost Approach was considered, however not developed.

The income approach was considered, but not developed as the subject property is located in a neighborhood of predominantly owner occupied properties with limited appropriate data.

After adjusting the comparable sales for differences in the market approach, the indicated value for the subject property ranges from \$157,900 to \$255,400. The estimate of market value for the subject property is \$200,000 which, is bracketed by the sales and the indicated value range and appears reasonable, as well as, being supported by the market data.

Exposure Time: Exposure time is the estimated length of time that the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal. Exposure time is a retrospective opinion based on an analysis of past events assuming a competitive and open market.

Exposure time appears to be typical of 15-45 days for aggressively marketed and properly priced properties.

3 YEAR DISCLOSURE STATEMENT

I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.

• GP Residential: Description of the Improvements - Property Condition

The subject is a single wide manufactured home which is not on a permanent foundation. Subject does have a detached oversized two car garage which permits have been verified. No physical, functional or external inadequacies noted at the time of inspection.

It is noted this is an exterior only inspection, property details were taken from various sources including a visual exterior inspection, public record sources, and the multiple listing service (MLS). The subject appears to be in overall average condition from the exterior. No physical, functional or external inadequacies noted. It is assumed subject's average exterior condition is reflective of the interior condition as of inspection date of 01/31/2023. If evidence is presented to indicate the interior condition is not as assumed, the appraiser reserves the right to amend this appraisal. (Extraordinary Assumptions) Use of Extraordinary Assumptions may effect the reconciled value.

As subject is documented to have been built in 1972, it is learned that "HUD" (Department of Housing Urban Development) will not issue a certification for any manufactured housing constructed prior to June 15, 1976. "HUD" considers the unit to be personal property.

• GP Residential: Market Area Description - Boundaries, Description, Conditions

Neighborhood Boundaries: Tahoe Street to the north, Topaz Drive to the east, E. Nuevo Road to the south and Ruby Drive to the west.

Description: The subject is located in a small mobile home community consisting of approximately 169 single wide and double wide manufactured homes. Homes range in ages from 1 year to 61 years of age with the mean of 40 years of age. Gross living area ranges are from 500 sq ft to 1,968+/- sq ft, GLA mean is approximately 1,339 sf. Lot sizes range from 7,405 sq ft to 7,841 sq ft with the median lot size at 7,405 sq ft. Area topography is level. All needed amenities and employment are located within close proximity. Freeway access (215 freeway) is approximately .3 miles south.

Market Conditions: Analysis of subject's market area indicates values to have been increasing over the prior twelve month time frame. Demand and supply appear to be in shortage in view of limited inventory. Sales financing are typically Conventional/Cash. Standard sales are the predominate activity. Data sample is relatively small due to the limited sales transactions in this area and may not be considered accurate.

This appraisal report is not a home inspection. It does not guarantee or imply that the house is free of defects or property condition problems. The appraiser is not a home inspector. It is suggested that the borrower secure a professional inspection of the property and take the necessary steps to insure the house is acceptable, should there be any concerns.

Chapter 7

**DECLARATION OF BENJAMIN
HESTON IN SUPPORT OF MOTION TO
AVOID LIEN ON REAL PROPERTY**

14 I, Benjamin Heston, declare as follows:

15 1. I am the attorney for the Debtors in the above-captioned bankruptcy proceeding. I have
16 personal knowledge of all matters stated herein. On all matters stated on information and
17 belief, I believe those allegations to be true. I could competently testify to the allegations
18 contained herein.

19 2. On December 22, 2022, I went to the Riverside County Recorder's Office and obtained
20 true and correct certified copies of the Abstracts of Judgments for Rescomm Holdings
21 No. 2, LLC and GCFS, Inc. which are attached to the Motion.

22 3. Attached to the Motion as Exhibit A is the Debtors' Schedule C which I downloaded
23 from the Court's ECF system on March 1, 2023.

24 I declare under penalty of perjury under the laws of the United States that the foregoing is
25 true and correct.
